PROFESSIONAL SUMMARY

Second-year B.Tech Computer Science and Engineering student with academic project experience in Python-based vehicle data analysis, SQL/database design, and C++ object-oriented programming. Interested in software development and data-focused internships, with a focus on building practical, well-documented projects.

EDUCATION

B.Tech, Computer Science and Engineering Aditya University, Surampalem | Expected graduation: 2029

TECHNICAL SKILLS

Programming: C++, Python
Database: SQL, relational database design, ER diagrams, normalization
Data analysis: Pandas, NumPy, data cleaning, exploratory data analysis, Matplotlib
Core concepts: Object-Oriented Programming (OOP), CRUD operations, primary and foreign keys
Tools: Google Colab, Jupyter Notebook, CSV data handling

ACADEMIC PROJECTS

Vehicle Fuel Analysis System | Python, Pandas, NumPy, Matplotlib, Google Colab
• Analysed the Cars India dataset to compare fuel-efficiency patterns by manufacturer and vehicle specifications.
• Cleaned data by handling missing values, checking duplicates, and preparing a cleaned dataset for analysis.
• Used grouped analysis and visualizations, including bar charts, histograms, and scatter plots, to explore relationships between vehicle attributes and fuel efficiency.

Online Examination Management System | DBMS, SQL
• Designed and documented a relational database for student, faculty, subject, exam, question, attempt, answer, and result records.
• Prepared ER relationships, relational schema, normalization, primary/foreign keys, and database constraints.
• Documented SQL operations and role-based workflows for administrators, faculty, and students.

Employee Payroll System | C++, OOP, vectors, file handling
• Built a menu-driven payroll application to manage employee details and calculate gross and net salary.
• Implemented salary components including allowances and deductions, payslip generation, and total payroll calculations.
• Added employee search, display, deletion, input validation, and saving/loading records using file handling.

CERTIFICATIONS & COURSES

Power BI , Microsoft Excel , Python , Oracle DBMS , Agile Software Engineering , Introduction to Data Science , Prompt Engineering

HACKATHONS & PARTICIPATION

• Participant — Internal Hackathon for Smart India Hackathon (SIH) 2026, Aditya University (Sep 2026).
• Participant — Adobe University Hackathon (Aug 2026).
• Participant — Women Who Master Hackathon, a Logitech and Aspire For Her initiative.
• Participant — TERRATHON 2026, sustainable hackathon, SRM University-AP | Sep 25, 2026

ACHIEVEMENTS

• Solved 200+ problems on CodeChef.
• Earned the CodeChef 50 Days Badge.
• Participated in the Smart India Hackathon (SIH).

SOFT SKILLS & LANGUAGES

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Time Management, Quick Learning
Languages: English, Telugu

AREAS OF INTEREST

• Software Development • Data Analytics • Database Management • Data Science • Artificial Intelligence • Problem Solving
